RACING

We've been exploring how to make our race boards stiffer and lighter, and our Double Layer Quadruple Stringer Technology is the perfect solution. Available in 12'6" and 14'0" lengths, the RACE was created for speed specialists and combines incredible speed with high efficiency, control and stability.

The RACE ELITE is the latest member to the race family, designed with a more performance-oriented shape for those focused on increasing speed in long distance events.

RACING

The Aqua Marina RACE is available in two lengths of 12'6" and 14'0", both in a 27" width, which provides enough stability to be in control when conditions get choppy, but stays fast and slippery to cover distances quickly.

RACE ELITE is a true racing machine, specifically designed for advanced paddlers looking to focus on paddling speed while covering longer distances. Constructed with four ultra-stiff carbon fibre reinforced stringers (CFR™ Technology), this board delivers incredible rigidity and responsiveness.

Featuring a straighter outline and pointier tail to increase top speed and maximise gliding efficiency, this race champion excels at keeping the board moving in a straight line. With a reduced width of 25" and bonus EVA side rail pad, the RACE ELITE ensures improved acceleration without sacrificing on stability.
